

# Turan Drilling and Engineering Company

## Invitation to apply for 2023 Summer Internship Program

**Turan Drilling & Engineering Company**, a joint venture between KCA Deutag, a global drilling and engineering contractor, and SOCAR AQS, a drilling and integrated well services company in Azerbaijan, is pleased to announce the commencement of the selection process for the **paid Summer Internship Program 2023**.

We are excited to offer you an outstanding opportunity to enhance your technical expertise and interpersonal skills within a collaborative and inclusive work environment.

### The main objectives of an internship program include:

- **Skill Development:** aim to enhance the participants' skills and knowledge relevant to their field of study or career aspirations. By working on actual projects and tasks, interns gain hands-on experience and develop practical skills that can be valuable in their future careers.
- **Professional Networking:** offer a chance to build professional relationships and expand networks within the industry. Interns have opportunities to interact with professionals, mentors, and colleagues, which can lead to valuable connections and potential job opportunities in the future.
- **Career Exploration:** provide a platform for individuals to explore different career paths and industries. Through exposure to various roles and responsibilities, interns can gain insights into their own interests and strengths, helping them make informed decisions about their future career paths.
- **Practical Application of Knowledge:** give the opportunity to apply the knowledge they have gained through their academic studies in real-world scenarios. This hands-on experience helps solidify their understanding of theoretical concepts and develop problem-solving and critical-thinking skills.
- **Personal and Professional Growth:** offer a platform for personal and professional development. Interns learn to adapt to a professional work environment, improve their communication and teamwork skills, and gain a better understanding of workplace dynamics and expectations.
- **Company/Industry Familiarity:** provide interns with exposure to the specific company or industry they are interning in. This familiarity allows them to gain insights into the company's operations, culture, and industry trends, making them better prepared for future employment within that sector.

### We invite 2nd-year graduate students from the following faculties to apply for the Program:

- **Oil and Gas Production**
- **Petroleum and Mining**
- **Petro-Mechanics and Oil Mechanical Engineering**
- **Power Engineering / Energetics in Oil and Gas**
- **Automatization of Production Processes**
- **Finance management and Finance administration**

As an intern at Turan Drilling and Engineering, you will have the opportunity to collaborate with highly skilled professionals in the industry. During the two-month period of July and August, you will gain exposure to diverse departments, including drilling operations, maintenance, and finance. Additionally, you will acquire valuable insights into other essential aspects of the business, such as human resources, supply chain management, health and safety, and more.

## Internship Details:

- Duration: 2 months (July/August 2023)

To apply for the internship program, please provide the following documents:

1. Curriculum Vitae (CV)
2. Copy of ID card
3. Copy of Student card
4. Copy of University score book (each available page)
5. Relevant certificates, if available
6. **Statement of Interest in video format** (Videos should be a single take (no editing) lasting no more than two minutes and consisting of you speaking directly to the camera. Video essay must be submitted only in avi or mpeg format.)

**All documents should be submitted by the deadline and within one email.** Students will be selected for interview for the internship programme based on an assessment of documents listed above. Please ensure that you provide all the necessary documents in a timely manner and in the proper format.
